

Benicia Marina is a good destination or stop on the way from the Bay to the Delta

The marina has a gas station and guest docking is usually available at \$1/foot. Sailing the Carquinez Strait is windy in June to August, so check forecasts. Current is typically 2 kts but can be higher but seldom less; best to stay in the marina but the anchorages do hold well (mud bottom). Benicia Yacht Club will welcome you as a BAMA member (PICYA affiliation). Sign in as a guest. There are a couple historic monuments in Benicia including the state capitol building for the time Benicia was state capitol. Nice little town to explore.
